Unique Slipway Location Codes

Slipway abbreviations for creating Unique Slipway Location Codes (USLCs)

Please use the suggested local authority abbreviations below to create your USLCs. If your area is missing from the table please use the system outlined in the document *The RNLI's guide to slipway safety signs and symbols* to create an abbreviation. Check that the abbreviation you create does not duplicate any of those listed below.

Submit your USLCs to your Coastguard contact using the registration form on page 11 of this document.
